SUMMARY

Graduated in Computer Science from UFMG, with a focus on Cybersecurity and Artificial Intelligence.
My career has been marked by problem solving in critical systems and technological innovation:

- **Cybersecurity**: Experience in security architecture (GSI/MPMG), vulnerability analysis, and incident response automation (Wazuh, MISP, TheHive). Author of research on systemic security at SEMISH 2025.
- **Artificial Intelligence**: Specialist in the development of neural networks for image processing and analysis.

KEY COMPETENCIES

Languages

- Python
- C
- C++
- C#

Libraries

- PyTorch
- Pandas
- Scikit-learn
- Statsmodels
- Scypi
- Numpy
- Seaborn

Technologies

- AWS
- SonarQube
- Jenkins
- OwaspZap
- Wazuh
- Shuffle
- TheHive
- Cortex

EXPERIENCE

- **Radio Memory** – *Machine Learning Engineer*
  - January 2025 - Present
- **UFMG** – *Researcher (Scientific Initiation Program)*
  - September 2024 - November 2025
- **Plural Systems Eirel** – *Intern (FullStack)*
  - March 2024 – September 2024
- **Adac Motors LTDA** - *Intern*
  - January 2024 – March 2024
- **Universo Licitações** - *Software Development Assistant (C#)*
  - July 2021 - December 2023

ACADEMIC BACKGROUND

- **Federal University of Minas Gerais (UFMG)**
  - Bachelor's Degree, Computer Science - (January 2021 – December 2025)
- **Pontifical Catholic University of Minas Gerais (PUC Minas)**
  - Bachelor's Degree, Computer Science – (January 2020 – December 2020)

LANGUAGES

English - Advanced
Portuguese - Fluent

COURSES

Tempest Academy Conference 2024 - Credential ID

CS50's Introduction to Cybersecurity - Credential ID

Cisco Cyber Threat Management - Credential ID
